

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

This is one of those topics that for most of us in the "real world" is an obvious "no brainer".

Reasons why its a bad idea:

Do we really need to add another reason to strangle inconsiderate cell phone users.

Don't give terrorists another tool to help kill us just so we can "chat" in the air.

Do we really know the consequences of 50 people suddenly flipping on their phones and saying "Oh cool we just took off" to the people standing in the airport they just left.

Do you really want to sit next to 13 year old "Susie" talking to "Bobby" for the whole four hour flight to Las Angles.

This is a bad idea! Its bad enough we have to tolerate them in cars, in theatres, on buses, trains. We can't avoid the bad them cramped up in the small and possibly dangeroues confines of an airplane. Just say "NO" to cellphones on airplanes.

Sincerely,

Paige Erb
